CONFERRO HERITAE

# CONTEMPORARY ARTISTS

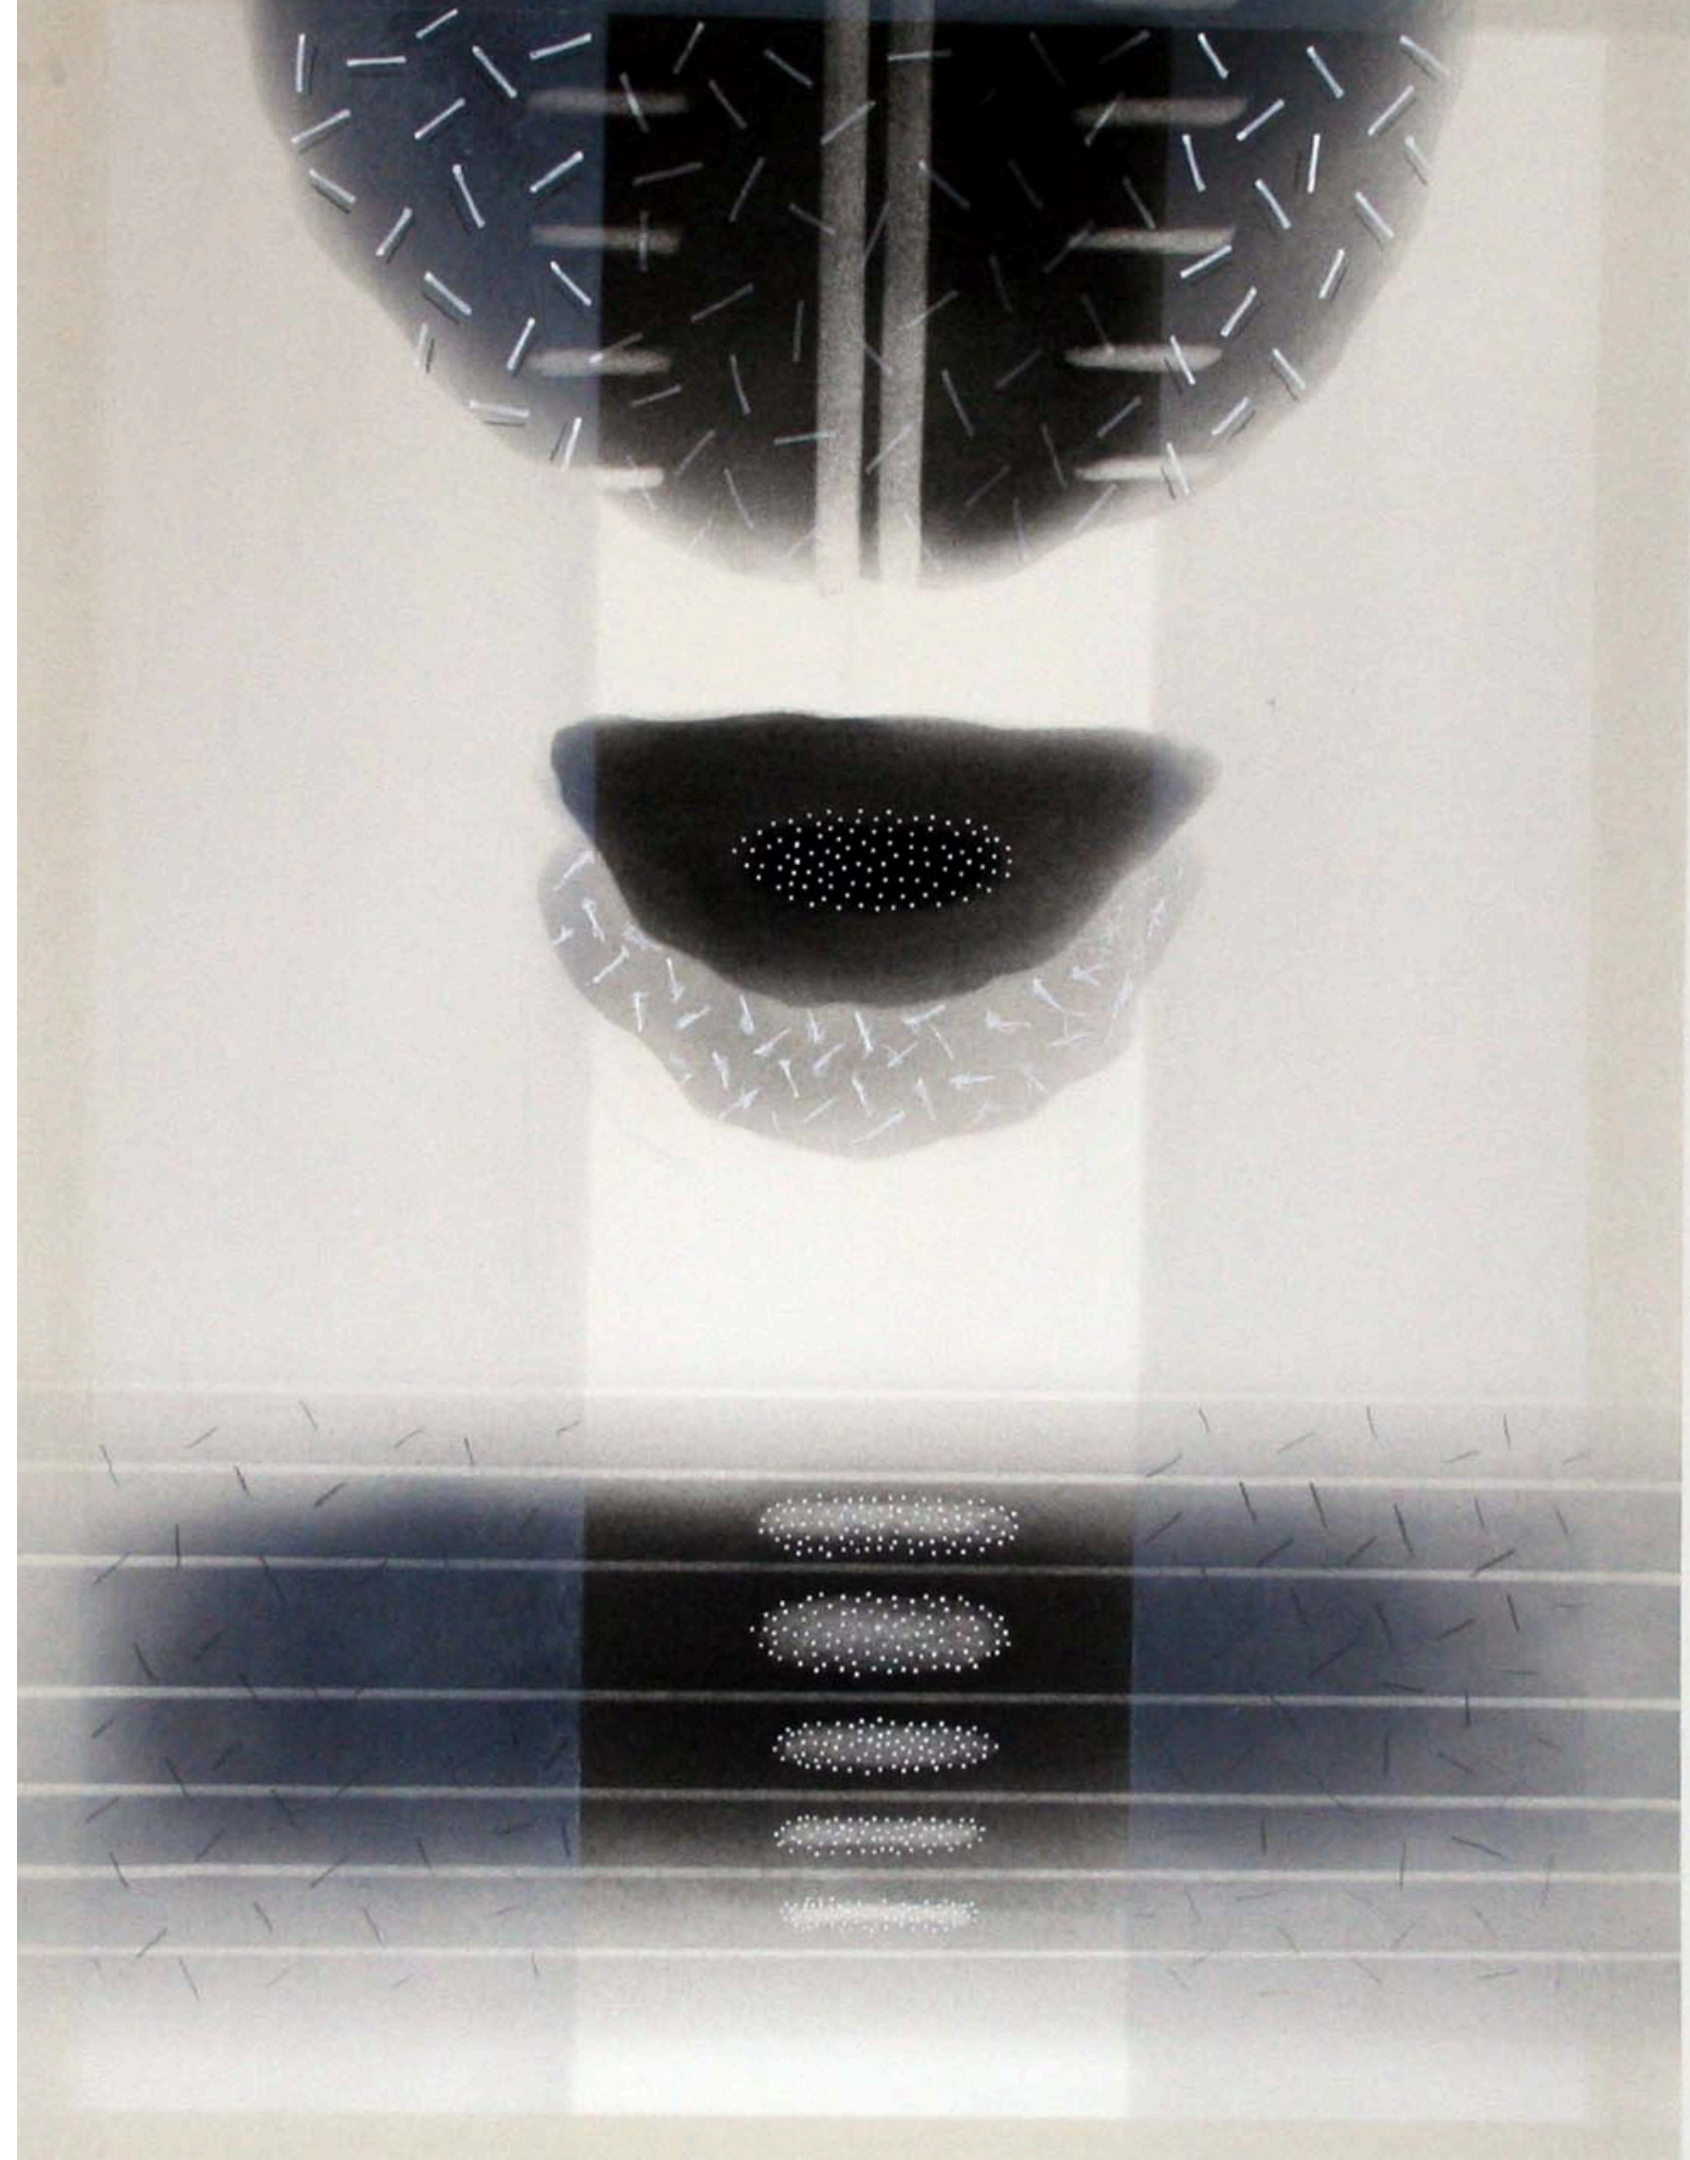

# KISHORE SHINDE

# VEER MUNSHI

**HEMANT RAO**

# SCULPTURE

For this Christmas edition, the catalogue highlights one of the youngest contemporary sculptors whose works have already been presented at international auctions. Her practice demonstrates a striking maturity, with a confident command over form, material, and expression that sets her apart on the global stage.

Her sculptures carry a quiet strength, balancing intensity with refinement. Timeless yet resolutely contemporary, these works make for considered acquisitions this season, embodying both presence and permanence

## WALL ART

The catalogue also features commissioned wall artworks by master and eminent tribal artists, created for private residences and distinctive properties. Drawing from folk traditions while embracing contemporary sensibilities, these works turn walls into powerful visual statements.

Vibrant, expressive, and increasingly sought after, tribal and folk wall art brings warmth, brightness, and a refined sense of character to any space, making interiors feel both elevated and culturally resonant.

# VINTAGE ADVERTISEMENTS

We present a refined selection of minted original advertisements, including rare Coca-Cola and vintage wine campaigns, alongside one-off pieces seldom seen in the open market. Preserved in exceptional condition, these works capture the visual language of a bygone era.

Both collectible and evocative, such advertisements bring character and nostalgia to contemporary interiors, offering collectors distinctive works that are as rare as they are visually compelling.
