PERSONALISED NEWSPAPERS

History unfolds in real time and is first recorded on the pages of newspapers, only to be read, set aside, and quietly forgotten as the days pass. Yet within these pages lie the original records of moments that shaped eras as well as lives. At Conferro, we preserve historic newspapers with archival precision, transforming what was once fleeting into something enduring. These preserved editions also become deeply personal gifts, curated from the exact dates of birthdays, anniversaries, weddings, and other life milestones. Each newspaper captures the world as it existed on that day, situating a personal moment within a larger historical context. Thoughtfully conserved, elegantly presented, and accompanied by a curatorial note, these newspaper giftings offer a rare way to commemorate time itself, creating heirlooms that carry memory, meaning, and legacy forward.

FINE ART

Fine art exists at the intersection of tradition, expression, and evolving cultural identity. Our collection spans classical forms of folk and tribal art, where ancestral narratives, ritual symbolism, and regional craftsmanship are preserved through generations, alongside the refined legacy of Tanjore art, distinguished by its gold embellishments, devotional depth, and meticulous technique. Complementing these historic traditions is a carefully curated selection of emerging contemporary artists whose practices reflect the concerns, aesthetics, and intellectual currents of the present moment. Together, these works form a cohesive dialogue between past and present, continuity and innovation. Each piece is selected for its artistic integrity, provenance, and cultural resonance, offering collectors not only aesthetic distinction but enduring value. Whether acquired for private collections, institutional spaces, or meaningful gifting, our fine art curation presents art not merely as decoration, but as a living cultural asset.

CONTEMPORARY ART

Our contemporary art curation features a focused selection of emerging artists whose practices reflect evolving visual languages and present-day narratives. Artists such as Anil Vishwakarma, Prasanta Acharjee bring distinctive perspectives through their use of form, material, and concept, engaging with themes that are both personal and culturally resonant. Each work is selected for its artistic merit, originality, and long-term relevance, offering collectors access to voices shaping the contemporary art landscape today. Available works are offered through a considered curatorial process, with detailed images and contextual information shared upon request.

LATA MANGESHKAR MOHAMAD RAFI

the singers

Lata Mangeshkar is the gifted daughter of a renowned musician who started her off on her musical career when she was but a child. In fact, at the age of 8, she was appearing in recitals with her father and by the time she was 10, she had appeared on the stage and acted in films.

The child prodigy grew up and in 1947 her voice on the soundtrack of a musical film immediately brought her into the limelight. From that moment onwards Lata has never looked back but has gone forward from success to success, and to-day there is hardly an Indian musical film in which she does not contribute her voice and hardly an Indian home which does not own a collection of her records.

A true son of the soil, Rafi was born in a remote village and grew up like a typical rustic youth. He was however not destined to be a farmer. His natural talent as a singer was apparent at an early age and he underwent a course of training under a well-known teacher of classical music. Soon after, he started singing over the radio and making gramophone records. This was followed by his recordings on soundtracks of musical films. All this went to consolidate his career but what brought him success in a big way and established him firmly in the forefront of popular singers was his recording of a magnificent ballad based on the life of Mahatma Gandhi, which created an immediate nation-wide sensation.

The meaning of "S"

Peugeot does not believe in nibbling you to death with extra-cost options. When you spend \$16,175* for a 505S Turbodiesel, this is the "S" (for Special) equipment that comes with the car:

- Factory-installed air conditioning
- Electric sunroof • Cruise control
- Electric windows • Digital AM/FM 40-watt stereo radio with cassette player, scan tuning, and four speakers
- Automatic electric antenna • Central door-locking system—a twist of the key locks all four doors and fuel-filler door
- Alloy wheels • Multi-adjustable driver's seat.

So fully equipped is the car that the only other ways to spend your money are by ordering a 3-speed automatic transmission (\$370) in place of the manual 5-speed overdrive gearbox, and by specifying metallic paint (\$295).

of the Peugeot 505S. It is no accident that the car is noted for its uncannily serene ride.

Cut open a Peugeot shock absorber and you will find that its piston has eight valves where normal shock absorbers make do with no more than two valves.

This awesome damping device enables the Peugeot 505S to glide calmly over bumps both large and small, yet maintain its aplomb when flung through a curve at speed.

It is more expensive to build a shock absorber the Peugeot way. But bear in mind its durability. Where a lesser shock absorber might be expected to show signs of weakening after 30,000

Even Peugeot workers get into the act

The American public has become disgruntled with shoddily made cars at inflated prices. Peugeot, a company long noted for the solid workmanship of its cars, has bent every effort to maintain its level of quality under enormous inflationary pressures.

The workers of Peugeot are encouraged to tell the company how to build its cars better. In the space of one year, at one plant alone, the workers made over 17,000 suggestions.
